

The Walpole Health Department will be holding a walk in public H1N1 vaccine clinic at the Walpole High School Cafeteria on Thursday, December 3, 2009 from **4:30 to 7:30 P.M.** **This clinic will only be for Pre-school 4 and older, Kindergarten through Fifth Grade Children who live in Walpole.** The flu vaccine formulations we received for now are only for age 4 and older. We plan on holding many more clinics as we get the vaccine, so other groups of people will have a chance of getting the H1N1 vaccine later on if they choose to. Please be respectful of these target groups.
