

Article 13 Field Master Plan Additional Information

Why is this needed?

1. This would allow the Town to solicit a study for an in depth analysis for a comprehensive plan of all town owned athletic fields.
2. It would provide a detailed plan of renovation & usage guidelines.
3. The overuse of Town fields have left the quality of fields in less than acceptable conditions. The Town needs to address athlete safety and accommodate the increased field users.

Article 13 Field Master Plan Additional Information

What would the Field Master Plan produce?

1. Maps and Plans to reflect property lines and topographic design for current and potential field sites. It would provide and inventory list for all fields & a suggested “good” uses for fields
2. Recommendations for irrigation plans
3. A list of current field uses, # of current users, expected growth each year & suggested a max amount of team uses for each field
4. A list of long and short term maintenance & repair items & itemized cost estimates
