

WALPOLE WATER DEPARTMENT WATER CONSUMER NOTICE

The Town of Walpole Water Department Hydrant Flushing and Testing Program is in progress and will continue town wide for several more weeks.

The hours of operation will be 10:00 p.m. to 5:00 a.m. and 8:00 a.m. through 2:00 p.m. depending on the particular area. It is expected that some discoloration and disturbance of the water in the area of work will occur while the program is in progress and consumers should check the clarity of their water prior to use. In the event that rust or sediment is present, wait approximately 2 hours for any disturbance that was caused by the flushing to settle and run the cold water faucet nearest the water meter until clear. **DO NOT RUN THE HOT WATER UNTIL THE COLD WATER IS CLEAR.** The Water Department apologizes for any inconvenience that may occur as a result of this program. Additional information including as to when we will be in a particular area can be obtained by contacting the Water Department at (508) 660-7307.
