Black Earth Compost Tips

Where to place your bin for pickup

When placing your bin on the curb, check to make sure it is visible for your driver and not behind an obstruction such as a tree, fence, or snowbank. Your driver will not see the bin if it is left on your porch.

Lining your bin

Line your bin with a brown paper bag or compostable liner. If using compostable liners, you can line the curbside bin or the countertop container (you do not need to line both).

Purchase liners for the curbside bin or countertop container through your [online account](#) and they will be delivered during your next scheduled pickup. If you purchase liners somewhere else, make sure they are [BPI](#), [CMA](#), or [OK Compost](#) certified..

DO NOT STORE LINERS IN THE BIN. The driver may flip the bin over and empty everything inside.

What if I have extra food waste?

Aside from pumpkins, pizza and shipping boxes everything needs to fit in your bin. If you exceed this capacity regularly, contact us to purchase service for a 2nd bin. If you are planning a party, and will need extra compostable waste picked up, purchase stickers for event collection.

Ways to reduce bugs and smells.

- Keep the inside of your bin dry! Squeeze out tea bags for example.
- Rinse bin and countertop container after emptied and let dry.
- Put baking soda on the bottom of the bin
- Use compostable liners, tying off helps
- Keep bin out of the sun
- Freeze scraps from earlier in the week
- Wrap meat/fish in newspaper like a burrito

What to do if it is snowing or freezing

Unless we notify you of a schedule change, put your bin out when it is snowing. Make sure it is not covered by snow or hiding behind a snowbank. The liners keep food from freezing to the side of the bin.
