Subject: Amount of 40B within a mile of sludge dump.

Please share this those 5 story buildings Remind me of the military barracks I lived in in 1958, are they to house Athletes for a summer olympics. That would explain the six holdover tracks for trains from six locations in Foxborough. Trains from Boston, Providence, Framingham, Stoughton, T.F. Green Airport, and Cape Code. Is the Kraft Groupe financing this. This could also be Like my Charlestown High School experience with the children of the convicts, and the children of correction officers going to school together. This 40B is a stones throw from the largest colony of correctional institutes in Massachusetts. The traffic study must take into consideration trains from six different markets. We will have train gridlock. Let's do our home work. This is such a bad idea we need to defeat it before it ruins our quality of life, and tips the Town of Walpole into receivership. Bill from precinct five.
