To: Ashley Clark; Zoning Board of Appeals

Hello Ashley,

I hope all is well. I am writing as a concerned citizen of South Walpole. While I support the project, I have some serious concerns over it's size and the subsequent impact it will have on the area. A project like this should conform to the neighborhood in which it will be built, not the other way around. The project as originally proposed with four story buildings will put incredible strain on our roads, water, and schools. I strongly oppose the ZBA approving a waiver for the project to increase density and build up to 70 feet, which would place additional strain on our roads, water, and schools. I appreciate all the good work that you and the zoning board do. I'm sure this has been a difficult process for you all. I hope you consider the concerns of those that live in the area and ensure that the project conforms to the neighborhood instead of forcing the neighborhood's residents to conform to this project. Thank you
