Zoning Board of Appeals Waiver

Dear Ms. Clark & Zoning Board of Appeals,

As a concerned Walpole resident I urge the ZBA to not approve the height waiver in front of them for the Omni Summer Street project. The proposed height is a safety risk putting the lives of Walpole Fire Department personnel as well as the occupants of the residential buildings. Also the proposed height does not fit with the character of South Walpole. A 4 story building would still be economical to the project.

Thank you for your service,  
Brian Bain
