

Hello,

I just have a question/comment:

If buses don't go through the complex, where will the children from the complex pick up the bus? I would like to make sure they aren't waiting as a group outside of the Development, near the train track, in the midst of traffic, or blocking children who will be walking to school. The bus stop will create further traffic delays while a large group of children board the bus at both pickup and drop off.

Thank you,

Erica Burdon
