Good morning!

I was at the meeting last night on 3/4 related to the Omni development and wanted to pass along my comments to please keep in mind the South Walpole Preschool as well as Boyden when it comes to construction once the project begins. The Preschool has completely different start and end times from Boyden. It would be great if Omni could cease or limit construction during school pickup and drop off times for Boyden, but since the Preschool has morning drop off and afternoon drop off, the times will vary. There's often children playing in the front yard of the church, so my concern is there might be heavy traffic during their school drop off and pickup, plus all the noise, and any pollution it might cause.

I also agree with all the other citizens comments made last night, and appreciate all of the hard work your team has already put into this, and will be putting in. I am grateful for the approval of all the peer reviews, the transparency and inclusion of the citizens of Walpole.

Thank you so much!

Erica Burdon
