Subject: Summer Street Project

Good afternoon,

I am writing in regarding my concern with the housing project that is going in on summer st in south Walpole. I live at 178 Summer St. It was a long time goal for my wife and I to move to Walpole because we heard what a great community it is and that the schools are excellent. Finally being able to realize that dream last year, we moved to Summer Street. I feel like this project is a slap in the face of my journey to Walpole. This will ruin the area immediately around my house for a great deal of reasons which you have been made aware of in the previous meetings. My taxes also went up in the year that I've been here so I am effectively paying even more to live in this community where the local leaders clearly don't care about the residents. Allowing this project to move forward is telling the community that you do not care about them.
