Legacy Engineering, LLC
730 Main Street, Unit 2C
Millis, MA 02054

Enclosed is the Walpole Conservation Commission's *Order of Conditions for the addition at 24 Wisteria Drive, Walpole, Ma. - DEP #315-1267.*

Please note that no work shall commence until the following steps are completed:

1. **Record the Order of Conditions at the Registry of Deeds and return recording information to the Conservation Commission office;**
2. Install erosion controls;
3. Provide the name and number of the contractor to the Conservation Commission

Please return a copy of the new recording to the Conservation Commission for our records

Very Truly Yours,
Conservation Commission

7. Dates: 7/11/2022 8/10/2022 8/16/2022
 a. Date Notice of Intent Filed b. Date Public Hearing Closed c. Date of Issuance
8. Final Approved Plans and Other Documents (attach additional plan or document references as needed):
 24 Wisteria Drive Site Plan of Land in Walpole, MA
 a. Plan Title
 Legacy Engineering, LLC
 b. Prepared By
 8/15/2022
 d. Final Revision Date
 Daniel J Merrikin, PE
 c. Signed and Stamped by
 1"=20'
 e. Scale
 f. Additional Plan or Document Title
 g. Date

B. Findings

1. Findings pursuant to the Massachusetts Wetlands Protection Act:

Following the review of the above-referenced Notice of Intent and based on the information provided in this application and presented at the public hearing, this Commission finds that the areas in which work is proposed is significant to the following interests of the Wetlands Protection Act (the Act). Check all that apply:

- a. ☒ Public Water Supply b. ☐ Land Containing Shellfish c. ☒ Prevention of Pollution
 d. ☒ Private Water Supply e. ☐ Fisheries f. ☒ Protection of Wildlife Habitat
 g. ☒ Groundwater Supply h. ☒ Storm Damage Prevention i. ☒ Flood Control

2. This Commission hereby finds the project, as proposed, is: (check one of the following boxes)

Approved subject to:

- a. ☒ the following conditions which are necessary in accordance with the performance standards set forth in the wetlands regulations. This Commission orders that all work shall be performed in accordance with the Notice of Intent referenced above, the following General Conditions, and any other special conditions attached to this Order. To the extent that the following conditions modify or differ from the plans, specifications, or other proposals submitted with the Notice of Intent, these conditions shall control.

B. Findings (cont.)

Denied because:

- b. ☐ the proposed work cannot be conditioned to meet the performance standards set forth in the wetland regulations. Therefore, work on this project may not go forward unless and until a new Notice of Intent is submitted which provides measures which are adequate to protect the interests of the Act, and a final Order of Conditions is issued. **A description of the performance standards which the proposed work cannot meet is attached to this Order.**
- c. ☐ the information submitted by the applicant is not sufficient to describe the site, the work, or the effect of the work on the interests identified in the Wetlands Protection Act. Therefore, work on this project may not go forward unless and until a revised Notice of Intent is submitted which provides sufficient information and includes measures which are adequate to protect the Act's interests, and a final Order of Conditions is issued. **A description of the specific information which is lacking and why it is necessary is attached to this Order as per 310 CMR 10.05(6)(c).**
3. ☒ Buffer Zone Impacts: Shortest distance between limit of project disturbance and the wetland resource area specified in 310 CMR 10.02(1)(a) 25

* #23. If the project is for the purpose of restoring or enhancing a wetland resource area in addition to the square footage that has been entered in Section B.5.c (BVW) or B.17.c (Salt Marsh) above, please enter the additional amount here.

23. ☐ Restoration/Enhancement *:

a. square feet of BVW

b. square feet of salt marsh

24. ☐ Stream Crossing(s):

a. number of new stream crossings

b. number of replacement stream crossings

C. General Conditions Under Massachusetts Wetlands Protection Act

The following conditions are only applicable to Approved projects.

1. Failure to comply with all conditions stated herein, and with all related statutes and other regulatory measures, shall be deemed cause to revoke or modify this Order.
2. The Order does not grant any property rights or any exclusive privileges; it does not authorize any injury to private property or invasion of private rights.
3. This Order does not relieve the permittee or any other person of the necessity of complying with all other applicable federal, state, or local statutes, ordinances, bylaws, or regulations.
4. The work authorized hereunder shall be completed within three years from the date of this Order unless either of the following apply:
 - a. The work is a maintenance dredging project as provided for in the Act; or
 - b. The time for completion has been extended to a specified date more than three years, but less than five years, from the date of issuance. If this Order is intended to be valid for more than three years, the extension date and the special circumstances warranting the extended time period are set forth as a special condition in this Order.
 - c. If the work is for a Test Project, this Order of Conditions shall be valid for no more than one year.
5. This Order may be extended by the issuing authority for one or more periods of up to three years each upon application to the issuing authority at least 30 days prior to the expiration date of the Order. An Order of Conditions for a Test Project may be extended for one additional year only upon written application by the applicant, subject to the provisions of 310 CMR 10.05(11)(f).
6. If this Order constitutes an Amended Order of Conditions, this Amended Order of Conditions does not extend the issuance date of the original Final Order of Conditions and the Order will expire on _____ unless extended in writing by the Department.
7. Any fill used in connection with this project shall be clean fill. Any fill shall contain no trash, refuse, rubbish, or debris, including but not limited to lumber, bricks, plaster, wire, lath, paper, cardboard, pipe, tires, ashes, refrigerators, motor vehicles, or parts of any of the foregoing.

C. General Conditions Under Massachusetts Wetlands Protection Act

8. This Order is not final until all administrative appeal periods from this Order have elapsed, or if such an appeal has been taken, until all proceedings before the Department have been completed.
9. No work shall be undertaken until the Order has become final and then has been recorded in the Registry of Deeds or the Land Court for the district in which the land is located, within the chain of title of the affected property. In the case of recorded land, the Final Order shall also be noted in the Registry's Grantor Index under the name of the owner of the land upon which the proposed work is to be done. In the case of the registered land, the Final Order shall also be noted on the Land Court Certificate of Title of the owner of the land upon which the proposed work is done. The recording information shall be submitted to the Conservation Commission on the form at the end of this Order, which form must be stamped by the Registry of Deeds, prior to the commencement of work.
10. A sign shall be displayed at the site not less than two square feet or more than three square feet in size bearing the words,

"Massachusetts Department of Environmental Protection" [or, "MassDEP"]
 "File Number 315-1267 "
11. Where the Department of Environmental Protection is requested to issue a Superseding Order, the Conservation Commission shall be a party to all agency proceedings and hearings before MassDEP.
12. Upon completion of the work described herein, the applicant shall submit a Request for Certificate of Compliance (WPA Form 8A) to the Conservation Commission.
13. The work shall conform to the plans and special conditions referenced in this order.
14. Any change to the plans identified in Condition #13 above shall require the applicant to inquire of the Conservation Commission in writing whether the change is significant enough to require the filing of a new Notice of Intent.
15. The Agent or members of the Conservation Commission and the Department of Environmental Protection shall have the right to enter and inspect the area subject to this Order at reasonable hours to evaluate compliance with the conditions stated in this Order, and may require the submittal of any data deemed necessary by the Conservation Commission or Department for that evaluation.
16. This Order of Conditions shall apply to any successor in interest or successor in control of the property subject to this Order and to any contractor or other person performing work conditioned by this Order.

C. General Conditions Under Massachusetts Wetlands Protection Act (cont.)

17. Prior to the start of work, and if the project involves work adjacent to a Bordering Vegetated Wetland, the boundary of the wetland in the vicinity of the proposed work area shall be marked by wooden stakes or flagging. Once in place, the wetland boundary markers shall be maintained until a Certificate of Compliance has been issued by the Conservation Commission.
18. All sedimentation barriers shall be maintained in good repair until all disturbed areas have been fully stabilized with vegetation or other means. At no time shall sediments be deposited in a wetland or water body. During construction, the applicant or his/her designee shall inspect the erosion controls on a daily basis and shall remove accumulated sediments as needed. The applicant shall immediately control any erosion problems that occur at the site and shall also immediately notify the Conservation Commission, which reserves the right to require additional erosion and/or damage prevention controls it may deem necessary. Sedimentation barriers shall serve as the limit of work unless another limit of work line has been approved by this Order.
19. The work associated with this Order (the "Project")
 - (1) ☐ is subject to the Massachusetts Stormwater Standards
 - (2) ☒ is NOT subject to the Massachusetts Stormwater Standards

If the work is subject to the Stormwater Standards, then the project is subject to the following conditions:

- a) All work, including site preparation, land disturbance, construction and redevelopment, shall be implemented in accordance with the construction period pollution prevention and erosion and sedimentation control plan and, if applicable, the Stormwater Pollution Prevention Plan required by the National Pollution Discharge Elimination System Construction General Permit as required by Stormwater Condition 8. Construction period erosion, sedimentation and pollution control measures and best management practices (BMPs) shall remain in place until the site is fully stabilized.
- b) No stormwater runoff may be discharged to the post-construction stormwater BMPs unless and until a Registered Professional Engineer provides a Certification that:
 - i. all construction period BMPs have been removed or will be removed by a date certain specified in the Certification. For any construction period BMPs intended to be converted to post construction operation for stormwater attenuation, recharge, and/or treatment, the conversion is allowed by the MassDEP Stormwater Handbook BMP specifications and that the BMP has been properly cleaned or prepared for post construction operation, including removal of all construction period sediment trapped in inlet and outlet control structures;
 - ii. as-built final construction BMP plans are included, signed and stamped by a Registered Professional Engineer, certifying the site is fully stabilized;
 - iii. any illicit discharges to the stormwater management system have been removed, as per the requirements of Stormwater Standard 10;

C. General Conditions Under Massachusetts Wetlands Protection Act (cont.)

iv. all post-construction stormwater BMPs are installed in accordance with the plans (including all planting plans) approved by the issuing authority, and have been inspected to ensure that they are not damaged and that they are in proper working condition;

v. any vegetation associated with post-construction BMPs is suitably established to withstand erosion.

c) The landowner is responsible for BMP maintenance until the issuing authority is notified that another party has legally assumed responsibility for BMP maintenance. Prior to requesting a Certificate of Compliance, or Partial Certificate of Compliance, the responsible party (defined in General Condition 18(e)) shall execute and submit to the issuing authority an Operation and Maintenance Compliance Statement ("O&M Statement") for the Stormwater BMPs identifying the party responsible for implementing the stormwater BMP Operation and Maintenance Plan ("O&M Plan") and certifying the following:

i.) the O&M Plan is complete and will be implemented upon receipt of the Certificate of Compliance, and

ii.) the future responsible parties shall be notified in writing of their ongoing legal responsibility to operate and maintain the stormwater management BMPs and implement the Stormwater Pollution Prevention Plan.

d) Post-construction pollution prevention and source control shall be implemented in accordance with the long-term pollution prevention plan section of the approved Stormwater Report and, if applicable, the Stormwater Pollution Prevention Plan required by the National Pollution Discharge Elimination System Multi-Sector General Permit.

e) Unless and until another party accepts responsibility, the landowner, or owner of any drainage easement, assumes responsibility for maintaining each BMP. To overcome this presumption, the landowner of the property must submit to the issuing authority a legally binding agreement of record, acceptable to the issuing authority, evidencing that another entity has accepted responsibility for maintaining the BMP, and that the proposed responsible party shall be treated as a permittee for purposes of implementing the requirements of Conditions 18(f) through 18(k) with respect to that BMP. Any failure of the proposed responsible party to implement the requirements of Conditions 18(f) through 18(k) with respect to that BMP shall be a violation of the Order of Conditions or Certificate of Compliance. In the case of stormwater BMPs that are serving more than one lot, the legally binding agreement shall also identify the lots that will be serviced by the stormwater BMPs. A plan and easement deed that grants the responsible party access to perform the required operation and maintenance must be submitted along with the legally binding agreement.

f) The responsible party shall operate and maintain all stormwater BMPs in accordance with the design plans, the O&M Plan, and the requirements of the Massachusetts Stormwater Handbook.

C. General Conditions Under Massachusetts Wetlands Protection Act (cont.)

- g) The responsible party shall:
 - 1. Maintain an operation and maintenance log for the last three (3) consecutive calendar years of inspections, repairs, maintenance and/or replacement of the stormwater management system or any part thereof, and disposal (for disposal the log shall indicate the type of material and the disposal location);
 - 2. Make the maintenance log available to MassDEP and the Conservation Commission ("Commission") upon request; and
 - 3. Allow members and agents of the MassDEP and the Commission to enter and inspect the site to evaluate and ensure that the responsible party is in compliance with the requirements for each BMP established in the O&M Plan approved by the issuing authority.
- h) All sediment or other contaminants removed from stormwater BMPs shall be disposed of in accordance with all applicable federal, state, and local laws and regulations.
- i) Illicit discharges to the stormwater management system as defined in 310 CMR 10.04 are prohibited.
- j) The stormwater management system approved in the Order of Conditions shall not be changed without the prior written approval of the issuing authority.
- k) Areas designated as qualifying pervious areas for the purpose of the Low Impact Site Design Credit (as defined in the MassDEP Stormwater Handbook, Volume 3, Chapter 1, Low Impact Development Site Design Credits) shall not be altered without the prior written approval of the issuing authority.
- l) Access for maintenance, repair, and/or replacement of BMPs shall not be withheld. Any fencing constructed around stormwater BMPs shall include access gates and shall be at least six inches above grade to allow for wildlife passage.

Special Conditions (if you need more space for additional conditions, please attach a text document):

Special Conditions - 24 Wisteria Drive - 315-1267

- 20. For Test Projects subject to 310 CMR 10.05(11), the applicant shall also implement the monitoring plan and the restoration plan submitted with the Notice of Intent. If the conservation commission or Department determines that the Test Project threatens the public health, safety or the environment, the applicant shall implement the removal plan submitted with the Notice of Intent or modify the project as directed by the conservation commission or the Department.

D. Findings Under Municipal Wetlands Bylaw or Ordinance

1. Is a municipal wetlands bylaw or ordinance applicable? ☒ Yes ☐ No
2. The Walpole Conservation Commission hereby finds (check one that applies):
 - a. ☐ that the proposed work cannot be conditioned to meet the standards set forth in a municipal ordinance or bylaw, specifically:

1. Municipal Ordinance or Bylaw	2. Citation
Therefore, work on this project may not go forward unless and until a revised Notice of Intent is submitted which provides measures which are adequate to meet these standards, and a final Order of Conditions is issued.	
 - b. ☒ that the following additional conditions are necessary to comply with a municipal ordinance or bylaw:

<u>Walpole Wetlands Bylaw & Regulations</u>	Div 2 Ch.
1. Municipal Ordinance or Bylaw	561
3. The Commission orders that all work shall be performed in accordance with the following conditions and with the Notice of Intent referenced above. To the extent that the following conditions modify or differ from the plans, specifications, or other proposals submitted with the Notice of Intent, the conditions shall control.
 The special conditions relating to municipal ordinance or bylaw are as follows (if you need more space for additional conditions, attach a text document):

F. Appeals

The applicant, the owner, any person aggrieved by this Order, any owner of land abutting the land subject to this Order, or any ten residents of the city or town in which such land is located, are hereby notified of their right to request the appropriate MassDEP Regional Office to issue a Superseding Order of Conditions. The request must be made by certified mail or hand delivery to the Department, with the appropriate filing fee and a completed Request for Departmental Action Fee Transmittal Form, as provided in 310 CMR 10.03(7) within ten business days from the date of issuance of this Order. A copy of the request shall at the same time be sent by certified mail or hand delivery to the Conservation Commission and to the applicant, if he/she is not the appellant.

Any appellants seeking to appeal the Department's Superseding Order associated with this appeal will be required to demonstrate prior participation in the review of this project. Previous participation in the permit proceeding means the submission of written information to the Conservation Commission prior to the close of the public hearing, requesting a Superseding Order, or providing written information to the Department prior to issuance of a Superseding Order.

The request shall state clearly and concisely the objections to the Order which is being appealed and how the Order does not contribute to the protection of the interests identified in the Massachusetts Wetlands Protection Act (M.G.L. c. 131, § 40), and is inconsistent with the wetlands regulations (310 CMR 10.00). To the extent that the Order is based on a municipal ordinance or bylaw, and not on the Massachusetts Wetlands Protection Act or regulations, the Department has no appellate jurisdiction.

**WALPOLE WETLANDS PROTECTION ACT AND
WALPOLE WETLAND PROTECTION BYLAW
AND REGULATIONS**

Findings: This order is issued for the construction of a single family house, driveway and associated grading and utilities located within 100-feet of bordering vegetative wetlands.

1. This Order shall apply to any successor in control or successor in interest of the property described in the Notice of Intent and accompanying plans. These obligations shall be expressed in covenants in all deeds to succeeding owners of portions of the property.
2. The Walpole Conservation Commission shall be notified in writing at the time of all transfers of title on this property prior to the issuance of the Certificate of Compliance. All buyers, purchasers, successors and/or assigns shall certify to the Walpole Conservation Commission receipt of a copy of the plan of record, Notice of Intent, and Order of Conditions for this project. A copy of said certificate shall be provided to the Commission upon transfer of title.
3. The Conservation Commission reserves the right to enter upon the property at reasonable hours to inspect the site for compliance with all orders issued herein.
4. The form provided at the end of this Order shall be completed and stamped at the Registry of Deeds. This form should be returned to the Commission prior to the commencement of work. Construction may commence after the expiration of the 10-day appeal period and if no request for appeal has been filed with the Department of Environmental Protection. Any Order not recorded by the Applicant before work commences may be recorded by the Commission at the Applicant's expense.
5. For any change made or intended to be made in the plans or in the work, the applicant shall file a new Notice of Intent or inquire in writing of the Commission whether or not the change is substantial enough to require a new Notice of Intent.
6. This document shall be included in all construction contracts and subcontracts dealing with the work proposed.
7. All contractors and all subcontractors shall be given a copy of this Order of Conditions before they commence to work. During the construction phase for this project, an on-site foreman, directing engineer, or designated construction manager shall have a copy of this Order of Conditions at the site, familiarize him or herself with the conditions of this Order of Conditions and adhere to such conditions.
8. Prior to any work commencing, a sign shall be displayed clearly showing **the DEP #315-1267** preferably not placed on a living tree.

DEP #: 315-1267
Applicant: Joe Zilch
Location: 24 Wisteria Drive
24 Wisteria Drive Site Plan of Land, Legacy Engineering, LLC
Signed: Dan Merrikin, Final 08/15/2022

**WALPOLE WETLANDS PROTECTION ACT AND
WALPOLE WETLAND PROTECTION BYLAW
AND REGULATIONS**

9. The Walpole Conservation Commission shall be **notified in writing at least two business days** in advance of construction to enable the Commission to inspect the site to ensure that the conditions have been met.
10. Failure to comply with this Order of Conditions may result in revocation of this Order of Conditions and may require a refile by the Applicant. If warranted, an Enforcement Order and fines may also apply.
11. The construction site manager or Applicant project manager (persons who will oversee the project on site and who has the ability to make decision) shall furnish the Conservation Agent with their names, address and 24-hour telephone contact number and sign sheet at the end of this Order of Conditions at least two business days before start of any work.
12. **Prior to any construction and/or cutting** of vegetation the erosion control line/limit of work as shown on the plan shall be surveyed and located in the field.
13. Prior to the beginning construction on the site, erosion controls shall be placed up gradient of all resource areas along the limit of activity as shown on the plan, between all disturbed areas and the wetlands.
14. The staked erosion control line shall be inspected and approved by the Conservation Agent prior to any other work occurring. ***Inspection**
15. All siltation and erosion controls as specified on the plan shall be employed and installed as per manufacturer's specifications except as otherwise directed by the Conservation Commission or its Agent.
16. Any changes to the erosion controls as specified on the plan shall be made in writing to the Conservation Commission unless the changes are in addition to the proposed.
17. Orange snow fence shall be installed along the downside of the siltation control barrier for the duration of construction. If the SILT CONTROL barrier is ORANGE this condition does not apply.
18. Compost sock sized for the site conditions shall be used for erosion controls unless specified otherwise by the Commission.
19. The site perimeter shall be inspected at the end of each construction day and any fallen or blown materials from the project shall be removed from the resource areas and buffer zone.

**WALPOLE WETLANDS PROTECTION ACT AND
WALPOLE WETLAND PROTECTION BYLAW
AND REGULATIONS**

20. Vehicle fueling shall not take place within regulated wetland or buffer zones or within 50-feet of the storm drains.
21. Erosion controls shall be reviewed by the Conservation Agent prior to removal. Erosion controls shall remain in place until removal is approved by the Conservation Agent.
22. During construction sediments are to be kept off the public way. If sediments are tracked onto the public way then the street shall be swept clean by the end of the construction day.
23. All construction and demolition debris including the old foundation and any other materials associated with past structures shall be removed from the site and properly disposed of according to Federal, State and local regulations.
24. Use of herbicides and pesticides within the buffer zone shall be limited to only 2 times a year.
.** CONTINUED BYLAW CONDITION
25. The “No Alteration Area” is 25-feet from the wetland boundary and shall remain natural. This is a no build and no alteration of vegetation area. Any change to the no alteration area may be a violation of the Walpole Wetlands Protection Bylaw.** CONTINUED BYLAW CONDITION
26. The “No Alteration Area” shall be demarcated with bounds (three feet high of granite or concrete) with plaques (minimum 3 inches high by 5 inches wide) made with brass or outside quality plastic. The plaque will be affixed to the permanent granite or concrete bound with epoxy cement and screws to make it permanent. The plaque shall read:

**No Dumping or Alteration
of Lands Beyond this Point is Allowed.
Per Order of the Conservation Commission**

**** CONTINUED BYLAW CONDITION**

27. **Use of fertilizers** within the 100 feet of the wetland boundary shall comply with the requirements of **330 CMR 31.00** including but not limited to:
 - a. No fertilizers containing phosphorus shall be applied in the absence of current soil test indicating the supplemental phosphorus is required;
 - b. No fertilizers shall be applied intentionally, or otherwise, to impervious surfaces and if so applied, shall be immediately cleaned up;
 - c. Fertilizers shall not be applied during or prior to a significant rain event;
 - d. Fertilizers are limited to an application 2 times a year only;

**WALPOLE WETLANDS PROTECTION ACT AND
WALPOLE WETLAND PROTECTION BYLAW
AND REGULATIONS**

e. All record keeping requirements shall be followed.

**** CONTINUED BYLAW CONDITIONS**

28. The fire pit located within the 25-foot "No Alteration Area" shall be removed and the area left to revegetate.
29. The 25-foot "no Alteration Area" behind the shed shall be cleared of the brush stockpile and left in a nature state.
30. The detention basin shall be maintained as per the Operation and Maintenance Plan.
31. Upon completion of this project, the Applicant shall submit the following to the Conservation Commission to receive a Certificate of Compliance.
- a. A letter from the Applicant certifying that all the work has been completed according to the plan and the DEP Form 8A requesting a Certificate of Compliance.
 - b. Inspection by the Conservation Agent that the detention basin was cleaned out according to the Operation and Maintenance plan.
 - c. An "as-built" plan prepared and signed and stamped by a registered Professional Engineer or land surveyor of the Commonwealth, for the public record.
 - d. Any change to the detail of the retaining wall (including materials or location) shall first be submitted to the Conservation Commission for approval before construction.
32. To be signed by the Managing Contractor and returned to the Conservation Department prior to beginning the project:

I _____, representing _____

have read and have a copy of the above conditions.
